

Ben Eggers, B.Sc., P.Geo.

Ben Eggers, B.Sc., P.Geo., MAIG is an Exploration Project Geologist with Talisker Resources Ltd. evaluating the Bralorne Mine Complex. Ben has 15 years of industry experience exploring precious and base metal ore deposits and minerals systems at various stages within the exploration life cycle. After graduating from the University of Otago in New Zealand, he began his exploration career in Australia (Mt Isa Inlier, Chilligoe District and Granites – Tanami Orogen) before relocating to British Columbia in 2013. Ben spent 4 years with Imperial Metals (Mt Polley and Regional Exploration across the Cordillera) and has been re-examining the Bralorne Mine Complex since 2017.
