## Brent Ward

---

Brent Ward is a Quaternary and Applied Geologist in the Earth Sciences Department at Simon Fraser University (SFU), Burnaby, British Columbia, Canada where he is also co-director of the Centre for Natural Hazards Research. Previously he worked at the Geological Survey of Canada and the BC Ministry of Forests. In the last 27 years at SFU, his research and that of his graduate students work on questions about the glacial history of the western Cordillera and various natural hazards including landslides and earthquakes. Brent teaches courses on Quaternary Geology, Natural Hazards, Terrain and Terrain Stability Mapping, Field school and various general Earth Science courses. He is a Professional Geoscientist in British Columbia.
