

MINING INDUSTRY'S NEXT EXPLORERS (M.I.N.E) CONFERENCE

May 21, 2025

9:00 am- 2:30pm
Moccasin Square Gardens
Kamloops, BC

What is the M.I.N.E. Conference?

M.I.N.E. is a one-day, first of its kind, **career exploration event for secondary students in the Southern Interior!** Geared towards students in grades 10-12, this event aims to showcase the **exciting and diverse career opportunities available in the minerals industry** through a collection of industry booths and educational activities.

Why should you participate?

We are looking to highlight all of the different career paths available to young people thinking about entering the minerals industry, from **heavy equipment operators and mechanics, to geologists and engineers, to camp and construction services.** There are **no fees to participate** and each organization will be supplied with booth and table space. Many attendees will be looking for potential **summer jobs** or thinking about what to do once they graduate, so this is an ideal event to **connect with local youth about employment opportunities!**

Contact info@mineralsed.ca to get involved!

We look forward to seeing you there!
