

Nadia Bruemmer

Nadia Bruemmer is currently a Senior Inspector of Mines, Permitting within Regional Operations in the Mines Competitiveness and Authorization Division in the Ministry of Energy, Mines and Low Carbon Innovation.

Nadia has worked in the Mine Division of the Ministry since 2015, formerly as a Permitting Inspector of Mines in the South-East Mines region. As an inspector of Mines Permitting she has experience issuing Mines Act Permits for Mineral and Coal Exploration, placer, Sand & Gravel and Quarries. Nadia is a Professional Geoscientist with over 5 years of Mineral Exploration industry experience throughout BC, Alaska, Ontario, Mexico, California and Costa Rica. Her experience extends from green to brownfield mineral exploration, and grassroots to advanced exploration projects. The majority of the projects she worked on in BC were gold epithermal deposits, and predominantly in the golden triangle.

Nadia lives in Kimberley, after leaving the mineral exploration industry in Vancouver, and was born in Fernie into a family of miners. She values the work life balance of government and the access to the backcountry the East Kootenays has to offer.
